

Marketing Hub + Sales Hub Total Cost of Ownership

2023 Report

About this Report

The results described in this report are based on survey data collected by HubSpot in May and June 2023 from 110 customers who owned Marketing Hub and Sales Hub and the publicly available product pricing information on [hubspot.com](https://www.hubspot.com) in June 2023. The values are expressed in US Dollars (USD).

All survey results are provided for information purposes only and are "as is", with no guarantee of completeness, accuracy, timeliness, or results obtained from the use of this information, and without warranty of any kind. Please keep in mind that results for individual businesses, including yours, may differ based on your own markets, customer base, industry, geography, stage, and/or other factors.

The following product icons are used throughout this report:

Marketing Hub

Sales Hub

Research Overview

Why

To understand the total cost of ownership of HubSpot's Marketing Hub and Sales Hub across an ownership life-cycle of 2 years.

The research set out to create a TCO model which:

1. Uncovers both the "obvious" costs and the so-called "hidden" costs of ownership.
2. Includes avoided costs with HubSpot versus competitors' offerings.
3. Estimates the cash flow for each cost component in the model for the average customer.

How

For cost items in which the price was published on HubSpot's website, we used the value listed as of June 2023.

To estimate remaining cost items, we conducted an online survey of HubSpot customers who owned both Marketing Hub and Sales Hub. Customers received invitations to participate from HubSpot and a \$35 gift card for their participation.

When

Survey data was collected between May and June 2023.

Marketing Hub Starter + Sales Hub Starter

Total Cost of Ownership

 Marketing Hub Starter

 Sales Hub Starter

Acquisition Costs

Typically limited to the upfront cost of the software.

57% of customers did not have any other acquisition costs in Year 1 increasing to 90% in Year 2.

Operating Costs

There are usually no additional costs to operate the software.

56% of customers had no operating costs in Year 1 increasing to 81% in Year 2.

Personnel Costs

There are typically no personnel costs associated with managing the software.

82% of customers leveraged only their current staff to manage the software.

What is Total Cost of Ownership (TCO)?

Put simply, it is the sum of all costs and expenses related to buying, implementing, operating and managing your software solutions (either directly or indirectly).

Why is TCO an important factor to consider?

TCO is important because it determines your ROI. A TCO analysis can reveal that software actually costs a business upwards of 5-8x the original purchase price. Understanding how much your software is going to cost you over time helps you make better buying decisions when deciding which software provides the best possible ROI.

What factors into TCO?

The three major costs areas associated with purchasing and implementing software are:

- Acquisition costs
- Operating costs
- Personnel costs

Acquisition Costs

Cost Component	What it is
Software upfront/subscription cost	Cost of the software whether a one-time, monthly, or yearly recurring fee as well as the cost of user licenses.
Implementation/onboarding cost	Cost of setting up the new system for your business and onboarding users.
Integration cost	Cost to integrate external systems into HubSpot.
Data migration cost	Charges to migrate data into HubSpot.
External system interface cost	The cost to integrate HubSpot software into external systems so they talk to each other.
Other acquisition costs	Any additional acquisition costs not accounted for above.

Operating Costs

Cost Component	What it is
Cost of additional marketing contacts or paid users	The cost to add additional marketing contacts or paid seats after initial purchase.
Training cost	Cost of external consultants, contractors, or firms to train employees to use HubSpot software.
Software maintenance cost	Cost of external consultants, contractors, or firms to provide software upgrades, updates, patches or bug fixes.
Customer support costs	Cost of getting customer support from external consultants, contractors, and/or from HubSpot.
Other operating costs	Any additional operating costs not accounted for above such as additional integrations, enhancements or security.

Personnel Costs

Cost Component	What it is
Number of full-time personnel	The number of full-time personnel hired/employed to manage HubSpot software.
Cost of personnel	The total amount spent per year in total on personnel (i.e., part time, full-time, agency/contractor) hired/employed to manage HubSpot software.
